With acrylics, EvoCanvas slightly delays drying time without any medium, giving me more freedom for first stains and glazes in my open, atmospheric landscapes.

Avec l'acrylique, l'EvoCanvas retarde légèrement le temps de séchage sans médium, ce qui me donne plus de liberté pour les premières touches et glacis dans mes paysages atmosphériques.

EN
EvoCanvas is a noble canvas that does not crease even when I crush it and load it with texture and material, it returns to its natural shape.

FR
L'EvoCanvas est une toile noble qui ne se froisse pas : même lorsque je la froisse et que je la charge de texture et de matière, elle retrouve sa forme naturelle.

ES
EvoCanvas es un lienzo noble que no se estruja: incluso cuando lo aplasto y lo cargo de textura y materia, vuelve a su forma natural.
